Disclaimer

This document contains forward-looking statements that involve risks and uncertainties, including references, concerning the Group's expected growth and profitability in the future which may significantly impact the expected performance indicated in the forward-looking statements. These risks and uncertainties are linked to factors out of the control of the Company and not precisely estimated, such as market conditions or competitors' behaviors. Any forward-looking statements made in this document are statements about Atos's beliefs and expectations and should be evaluated as such. Forward-looking statements include statements that may relate to Atos's plans, objectives, strategies, goals, future events, future revenues or synergies, or performance, and other information that is not historical information. Actual events or results may differ from those described in this document due to a number of risks and uncertainties that are described within the 2024 Universal Registration Document filed with the Autorité des Marchés Financiers (AMF) on April 10, 2025 under the registration number D.25-0238 and the half-year report as of June 30, 2025 published by Atos Group on August 1, 2025. Atos does not undertake, and specifically disclaims, any obligation or responsibility to update or amend any of the information above except as otherwise required by law. This document does not contain or constitute an offer of Atos's shares for sale or an invitation or inducement to invest in Atos's shares in France, the United States of America or any other jurisdiction. This document includes information on specific transactions that shall be considered as projects only. In particular, any decision relating to the information or projects mentioned in this document and their terms and conditions will only be made after the ongoing in-depth analysis considering tax, legal, operational, finance, HR and all other relevant aspects have been completed and will be subject to general market conditions and other customary conditions, including governance bodies and shareholders' approval as well as appropriate processes with the relevant employee representative bodies in accordance with applicable laws.

Launch of Atos Amplify: A Unified Business Unit Designed to Drive the Group's AI-powered Consulting

AI-ready consulting powerhouse: uniting strategy, technology and execution to help clients achieve measurable, industry-shaping outcomes

Three core capabilities

Driving business transformation

Maximizing the value of platforms and hyperscalers

Unlocking the value of data and AI

Key strengths turned into added value for our clients

AI Amplified Human Expertise

Our people, processes, ways of working, assets, and governance are powered by AI, with guardrails for responsible and ethical AI.

We have invested in our people to deliver AI-centric, industry-led solutions that drive tangible business outcomes.

We've done it at Atos. We can do it for clients

Amplified Business Outcomes through Technology

Our consult-to-build model powered by Atos deep tech capabilities delivers tangible business outcomes.

We deliver AI-ready, tailored transformation services that combine deep industry expertise with local market insight.

We tailor our approach to each client.

Amplified European Core

Our resilient-by-design approach helps clients navigate geopolitical uncertainty.

AI, cybersecurity, sovereignty and EU regulation matters are at the core of everything we do.

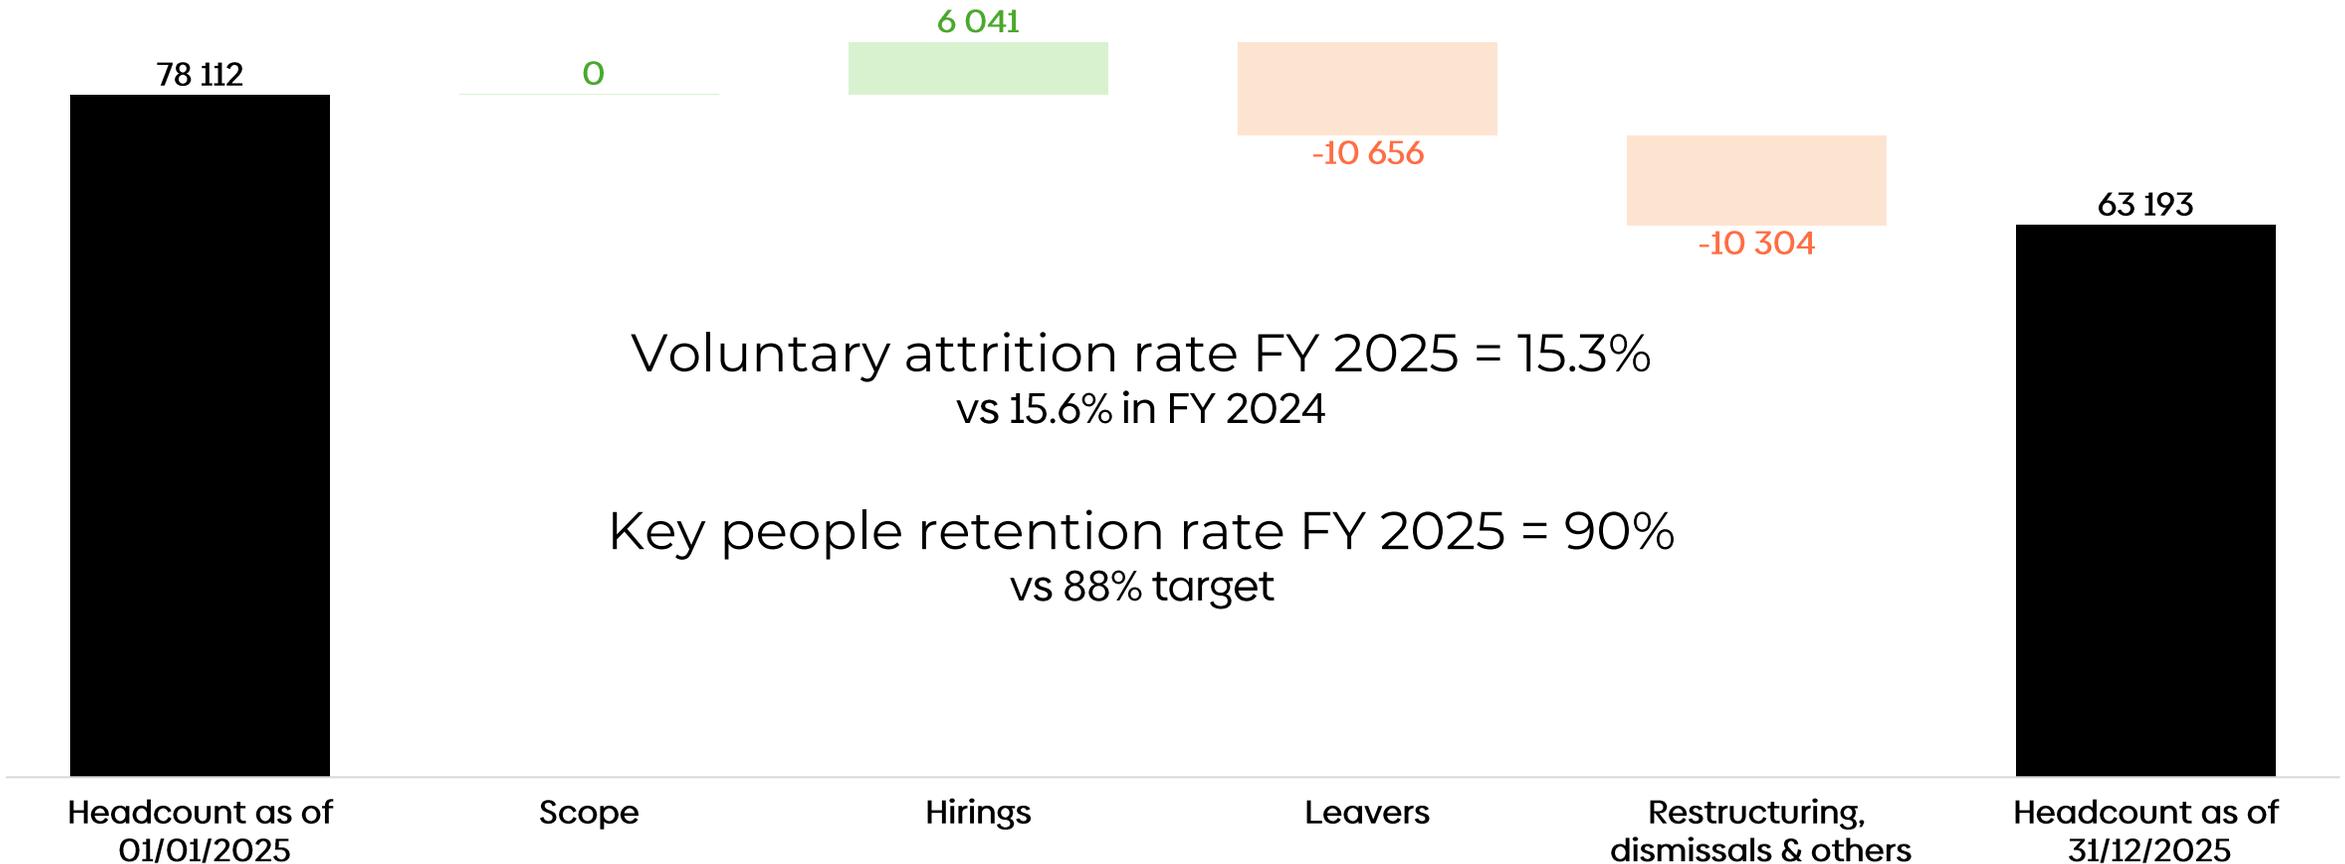

We ensure the freedom of action for clients

Tech Update: Atos Well Placed in the AI Era

Florin Rotar

Group Chief Technology Officer

Atos is Uniquely Positioned to Benefit from AI Tailwinds

Global AI Spending is Booming

Atos Has Strong Moats

Our clients run **highly regulated, secure, sovereign, complex brownfield** and operationally **critical systems**. Flywheel convergence of **Sovereign, AI and Cyber**.

Unique position as the **“Switzerland of Governance”** of secure, cross-platform **Agentic AI**. **Unique partnership with AI-native / Sovereign start-ups**.

Decades-long managed services relationships and deep **client know-how**, evolved into **Agentic AI as-a-Service**

A Leader in ISG Provider Lens® 2025 for Advanced Analytics and AI Services

A 'Leader' in all Four Market Segments in NelsonHall's 2025 NEAT Evaluation for Transforming Business Operations with GenAI

A Market Leader in HFS Horizons: AADA Quadfecta Services for the Generative Enterprise, 2024

Charts created and calculations performed by Atos based on Gartner research. Source: Gartner®, Forecast: AI Spending, Worldwide, 2024-2029, 4Q25, 19 December 2025; GARTNER is a trademark of Gartner, Inc. and its affiliates.

Atos Group Reimagined: Three Pillars of Growth

Sovereign AI deployment within trusted and compliant environments

AI augmentation embedded in digital sovereign transformation to mitigate cost trade-offs

Digital sovereignty by Design

Embedded as core design principle across our entire portfolio

Full suite of cybersecurity controls as Sovereignty enablers

State-of-the-art sovereign cybersecurity products

ATOS

GROUP

**Flywheel Across our Three Tech-Strategic Pillars
Sovereign X Cyber X AI**

Mission-Critical Agentic AI

Delivered in complex, regulated environments: governance, sovereignty, reliability, security, and responsibility

AI-augmented AI cyber monitoring and incident response

Secure AI design, development and operations

Cybersecurity Built-In

Securing the full stack digital environment end-to-end

Atos is a Leader in Mission-Critical Agentic AI in Complex, Regulated Environments

Client AI spend is converging services and technology budgets into a unified value pool. Measurable value generation at scale is paramount, with governance and orchestration as key enablers. Sovereign AI emerging as high priority

Announcing 4 Atos Sovereign Agentic Studios

Continuous Change

n8n
Digital Engineer

Poolside, a leader in foundation models for agentic enterprises, has created a unique partnership with ATOS to deliver world-class sovereign AI solutions to enterprises across Europe and beyond. Together, we are enabling organizations to harness the full power of frontier AI - on their terms and without compromise.

Differentiators for our Agentic studios

Built for production from day one

Not a lab or innovation sprint. Designed to run agents in live, regulated, complex enterprise environments

A clear path to scale

A contractable journey enabling clients to start where they are and scale with confidence

Governance embedded by design

Security, compliance, sovereignty, identity, and auditability are engineered in, not bolted to run agentic AI safely, with continuous control and compliance in production

Deep enterprise integration

Agents are embedded into existing ERP, ITSM, cloud, legacy, and data estates

Operational accountability and value

Agents run within defined KPIs, decision boundaries, and human-in-the-loop models - delivering real productivity gains, reduced pilot fatigue, and sustained business value

Workforce transformation built in

Clear roles for humans and agents are defined from day one, shifting teams from execution to orchestration, supervision, and decision-making, with accountability retained by humans

Delivering value with lighthouse customers

Scottish Water is deepening its partnership with Atos to explore how Agentic AI can transform operational planning, risk assessment, and decision-making across its national water and wastewater networks. As the operator of one of the UK's most complex utility systems, Scottish Water recognises the significant value of AI-driven foresight in reducing operational risk - especially during routine or reactive network configuration changes. At the core of this initiative, AI Agents will continuously monitor the network, analyse proposed changes, and automatically generate contextual risk assessments. By drawing on live operational data and cross-referencing it with Scottish Water's asset information, these Agents will deliver near real-time, data-rich impact assessments and dynamically update contingency plans - dramatically reducing manual workload for operational teams. Together, these capabilities are designed to elevate situational awareness, minimise service disruptions and associated costs, strengthen regulatory compliance, and enhance the experience for both customers and frontline operational teams.

Defra is delighted to extend our partnership with Atos as a lighthouse customer for their Agentic Studio. Atos has already delivered measurable value to Defra through the use of their AI enabled Digital Transformation Engineer platform, where a 27% productivity gain compared to traditional methods has been measured on their modernisation of critical apps for the Animal and Plant Health Agency. We now have a number of use cases for AI enabled agents that we are taking through assessment in their Agentic Studio, any of which will deliver tangible value to Defra as well as aiding our joint learning on the opportunities presented by agentic AI and the changes we will need to make as a business to unlock them. This work is critical as we see the use of AI enabled agents as a key enabler for us in delivering our mission to make our air purer, our water cleaner, our land greener and our food more sustainable

Al Maryah Community Bank (Mbank) and Atos are proud to have signed a strategic partnership agreement to build on Mbank's advanced digital foundation and its commitment to delivering differentiated, community-focused financial services across the UAE. As Mbank's IT Strategic Partner, Atos will deploy the latest Agentic AI technology and cybersecurity services to improve operational resilience, creating measurable efficiencies while reducing complexity and risk and enhancing the customer experience.

And many more ...

Atos uniquely addresses a €40-50B IT spend sweet spot (high Sovereign criticality)

Clients wish to retain control, authority, and accountability over their data, infrastructure, applications, and digital operations, in compliance with applicable regulations while minimizing dependency, exposure, and disruption risks

Atos is offering the full spectrum of Digital Sovereignty...

Cybersecurity	Enhanced Native Cloud
	Controlled Cloud
	Trusted Cloud
	Disconnected Cloud
	Sovereign AI

Advise → Build → Run

... with a rich set of key differentiators

<p>Local anchorage & European DNA</p>	<p>Track record in defense & regulated verticals</p>	<p>Unique cybersecurity expertise & products</p>
---	--	--

...with a strong ecosystem of partners....

...delivering value to dozens of customers

PAC

“
Few players can claim the unique combination offered by the Atos Group... an umbrella of sovereignty provides the whole with unprecedented coherence!
 ”

Notes: FCF: Net change in cash before M&A, WCA & FX ; (*) Net debt (before IFRS 9 fair value adjustment) / OMDAL last 12-months

04

Outlook

Philippe Salle
Group Chairman & CEO

Atos as it Stands Today*: Global, Diversified, Resilient

€7.2B
FY25 Revenue

€314M
FY25 Operating Margin

58K
Employees as of Dec. 31, 2025

54
Countries of operations

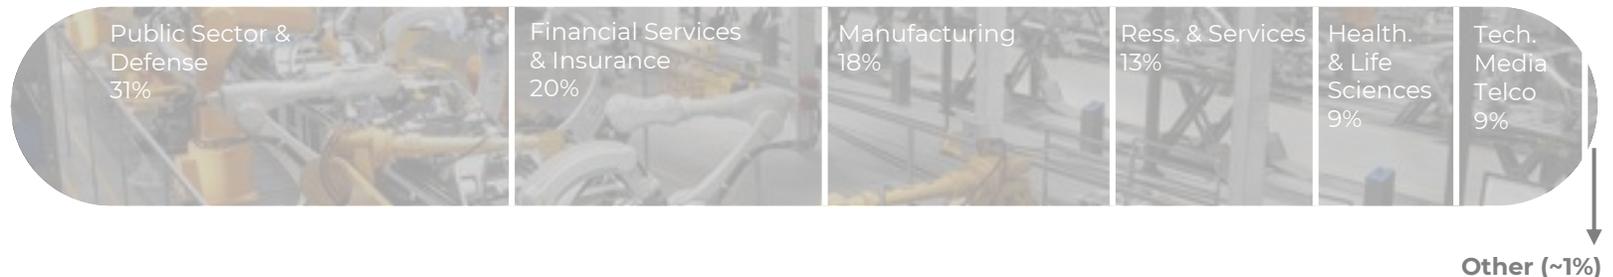

Business Lines

Geographies

Industries

Notes: Covers Data & AI external revenues explicitly identified within the scope of the new business line implemented in July 2025, excluding Data & AI services embedded in offerings of other business lines. Total external revenue for Data & AI activities estimated at above 2%. Covers Digital Transformation consulting external revenues explicitly identified within the scope of the entity, excluding consulting services embedded in offerings of other business lines. (*) After divestitures of Advanced Computing activities, South America operations and Nordics - preliminary estimations of the impact of divestitures, segment split subject to further internal transfers

Financial Ambition

2026

Stabilization

Positive organic growth
Downside scenario
limited to -5%

~7% Operating Margin

Positive net change in cash¹

2028

Sustainable cash generation

Organic growth acceleration
5-7%

2026-2028 revenue CAGR

**Further cost optimization &
profitable growth**
c.10% operating margin

Visible deleveraging

<1.5x net debt/OMDAL²

Notes: Following the disposal of Advanced Computing activities, the Ideal GRP subsidiary in the Nordics and the Atos operations in South America, the Group's baseline for establishing future ambition represented revenues and operating margin of €7,187 million and €314 million respectively in FY 2025

Additional notes: (1) Net change in cash before debt repayment, and calculated before the estimated impacts of i/ exchange rate fluctuation, ii/ M&A and iii/ change in unsolicited payments received in advance of the invoice payment due date during the year (2) OMDAL=Operating Margin before Depreciations, Amortization and Leases
